trifectiv® plus WOUND & BURN CARE

ACUTE WOUNDS

FACIAL GRAZE
AFTER A BICYCLE FALL

Context: A child presented with a facial graze after falling off a bicycle.

Treatment Plan: The face was left open and sprayed with Trifectiv® Plus for three days.

Results: The graze had healed by day 3, without scarring.

Tip: On a child's face: spray, leave open, no plaster. Parents can do this at home.
