trifectiv® plus WOUND & BURN CARE

ACUTE WOUNDS

TRAUMATIC INJURY TO **THE LEFT HEEL**

Context: An 8-year-old boy sustained a laceration of the left heel, which was sutured at the local hospital.

Treatment Plan: A closed Trifectiv® Plus dressing was applied and changed daily while the sutures were in place. After suture removal, the wound was sprayed four times a day.

Results: The wound healed with minimal scarring.

Tip: Keep a bottle of Trifectiv® Plus - first aid in a bottle - at home for unexpected injuries.
